

ComColors: Train the trainer seminar

FOR WHO: People who want to become a trainer, trainers who want to widen their areas of competence and Companies' trainers who want to reinforce their training skills. It is also for consultants/ trainers who want new tools to help people who are changing jobs and/ or students.

NUMBER OF ATTENDEES: 6 to 12 persons

DURATION: 10 days (3 + 3 + 3 + 1)

TARGETS:

- Learn the different training techniques
- Master the Comcolors concepts and learn how to use them
- Widen one's field of trainings
- Learn new tools and techniques

THE 6 KEY POINTS OF THE TRAINING

1- Duration

The training is built on a period of 7/ 9 months with a session every 2 months (3 three days sessions and the certification)

See our calendar on the website

The sessions happen every 2 months in order to :

- Give time to attendees in order to understand the concepts
- be able to use the concepts seen in every session
- Build their own training sessions

Our target is to allow attendees to have time to train between sessions in order to get to master the different concepts they have learned and get to understand their own position in front of their attendees, so that they become trainers before the end of the "train the trainer" seminar.

2- Work groups

At the beginning of the first session, we make work groups (subgroups) who are going to work together between sessions in order to work with the training tools and practice.

Our target is to make the attendees autonomous and actors of their own training.

3- A specific consultant's approach

During every session, we train the attendees with the communication tools so that they are able to use them with their own attendees and clients.

Our target is to bring the attendees to master these techniques so that they become professional reflexes.

4- Tools

The specificity of our approach is to give innovative tools to the attendees from the Comcolors mode.

With these tools, the attendees can train in these various fields :

- Conflict management
- Interpersonal communication
- Teambuilding
- Management
- Motivation
- Sales techniques
- Presentation skills

- Meeting management
- Stress and time management
- Vocational guidance

Our target is to give tools to the attendees that are usually acquired with several distinct trainings.

5- Efficient training

During each session, the attendees have to take the trainer's place and train others with what has been learned from the previous session. They then have to train others with their own modules. These exercises and the feedbacks are filmed and can be seen on the website (restricted access for trainers only)

Our target is to deliver a concrete training that will allow attendees to explain and use all the concepts seen during the whole seminar.

CERTIFICATION :

- Apply competencies learned through the seminar
- Test of mastering content and process
- Hands on role plays
- Certified trainers are then on the website list if they would like to

EDUCATIONAL METHODS :

- Creation of work groups
- Work sessions between those groups in between the seminar days.
- Immediate use of the tools presented within the seminar
- Each participant will fill out a questionnaire and get his/her personality profile given
- Theoretical contribution
- Use of videos that explain each personality
- Exercises, role play
- Using Comcolor tools and the profile result throughout the training.
- Case study and explanation of described situations by the participants (hands on approach, dealing with real situations)
- Training in the method thought
- Exercises with video sequences

LOCATION :

- Haymarket 28-29 London SW1Y 4SP
- This seminar does not include a place to stay overnight

SCHEDULE :
